

Gerber Material Management Systems

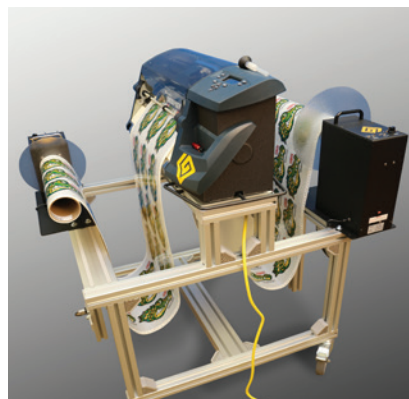

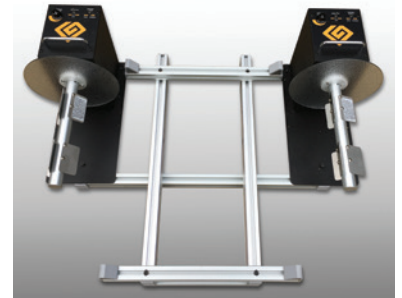

GERBER MATERIAL MANAGEMENT SYSTEMS FOR THE GERBER EDGE® FX™ AND THE GERBER ENVISION™ 375 PLOTTER INCREASE YOUR PRODUCTIVITY AND PROFIT.

Tools to improve efficiency and ensure quality results.

The GERBER EDGE FX Material

Management System helps keep your material clean and unwrinkled by adding automated supply and take-up rewinders (pictured) that are precisely aligned with the GERBER EDGE FX. Constant tension on the media eliminates the need to rewind printed material by hand as it moves back and forth through the printing operation. Purchase today with a GERBER EDGE FX or separately, and start saving time and money.

The Gerber enVision Material Management

System maintains slack and rolls up the material after it is cut with the Gerber enVision 375. This system is designed to accommodate repeat cuts using sequence plot. The maximum single shape should not exceed 48" long when using both re-winders and sequence plot.

Gerber Material Management Benefits:

- Clean, wrinkle-free output.
- Reduced workspace requirements.
- Unattended operation.
- Increased efficiency

Technical Specifications:

Part Number	Dimensions & Weight	Power
GERBER EDGE FX Material Management System – Domestic		
P84937A	(1) 36" W x 30" L x 8" H box, 17 lbs. (2) 20" W x 20" L x 12" H boxes, 26 lbs. each	110V
GERBER EDGE FX Material Management System – Export		
P84960A	(1) 36" W x 30" L x 8" H box, 17 lbs. (2) 20" W x 20" L x 12" H boxes, 26 lbs. each	230V

Part Number	Dimensions & Weight	Power
Gerber enVision 375 Material Management System – Domestic		
P84938A	Weight with Skid: 164 lbs., Ships assembled. Dimensions with Skid: 48" W x 40" L x 48" H Weight without Skid: 114 lbs. Dimensions without Skid: 40.25" W x 30.25" L x 44" H	110V
Gerber enVision 375 Material Management System – Export		
P84961A	Weight with Skid: 164 lbs., Ships assembled. Dimensions with Skid: 48" W x 40" L x 48" H Weight without Skid: 114 lbs. Dimensions without Skid: 40.25" W x 30.25" L x 44" H	230V
