V8.10 Release Notes

YPLM# *New Features*

YPLM-6844	Admin Folder: Added a new app setting to better display field labels to avoid confusion in regards to which fields have populated data vs blank fields. The <i>DisplayLabelsAboveFieldsOnForms</i> setting is located within the Admin > Setting > General area.
AIPLUG-415	Adobe Plugin: The Adobe Plugin now includes available YPLM Color libraries (Corporate library, Pantone, or A&E thread libraries) when building a color palette within the Color Extension in Illustrator. Users can also perform a global search across all available color libraries when searching by color code/name.
AIPLUG-614	Adobe Plugin: Updated the Style Extension page descriptions for the BOM Tab when adding Material and Colorway to match YPLM.
AIPLUG-865	Adobe Plugin: Updated the Color Extension page with the ability for a user to delete a color palette if the color palette contains no colors.
UIMOD-6549	Application Configuration: Updated the tooltip, within all grids containing the drag and drop ability, to display the corresponding tips.
YPLM-7549	<p>Artboards: Updated the Style Artboard logic for the following workflow pages: Text-Image, Freelance Design, Design Details, and Design Details Custom.</p> <ul style="list-style-type: none"> • When an artboard is used on a Style for the first time, insert the artboard pages, in the order they appear, at the bottom of the page/sorting. • If a user adds another image inside PLM, it will automatically add that to the bottom of the sort list. • If a user adds images from a second artboard file to a Style, the images are added to the bottom of the sort list. • Images that are added to a Style from the first artboard file should not be removed when a second artboard file is added. • Images that were manually added to a Style should not be removed when an artboard is added to the page. • After initially uploading images from the plugin, changing sorting in PLM will not change sorting back in the plugin and vice versa.
YPLM-7103	Bill of Labor: Added highlighting of editable and unlinked fields with an orange border on the Style's Bill Of Labor Edit page and BOL Template Edit page. This is similar to the Measurement workflow page in regards to linked vs unlinked POMs.

YuniquePLM 8.10 Release Notes

YPLM-7407	Color Folder: Updated the Pantone Coated library with 294 new colors.
YPLM-7408	Color Folder: Updated the Pantone Uncoated library with 294 new colors.
YPLM-7409	Color Folder: Updated the Pantone FHI Cotton TCX library with 315 new colors.
YPLM-7410	Color Folder: Updated the Pantone FHI Paper TPG library with 315 new colors.
YPLM-4716	Control Panel: Removed a redundant fabric checkbox from the Style category.
YPLM-6144	Image Folder: The Image Folder now supports uploads of HEIC files.
UIMOD-4078	Line List: Updated the Line List's Remove style popup user interface.
UIMOD-6384	Line List: Updated the Line List's Showroom Quantity page to include an indent at the bottom of the page resembling other pages within the Line List.
UIMOD-6607	Line List: Removed the hand cursor from the grid where a selection is not applicable.
UIMOD-6548	Material Folder: Updated the Material Folder's Care workflow user interface.
YPLM-6855	Material Folder: Added tooltips to multi-select fields to display all selected field values.

YuniquePLM 8.10 Release Notes

UIMOD-6611	Measurement Page: Added Audit fields to the “Add POMs from Template/ Replace the template” popup on the Style Measurement page.
YPLM-6085	Sample Request: Added the Measurement page title name to the top panel of each Sample Submit.
YPLM-7115,	Sample Request: Updated the Style Sample Request Timeline view to include the name of the Measurement page used in a specific Sample Submit within the popup that can be shown when the user hovers over Submit.
YPLM-7418	Sample Request: Added configurability to the Sample Request’s Certificate of Conformity Sample Type Template grid. Users can apply the same configurations from the Control panel > Templates > Sample Testing template to the Certificate of Conformity grid.
YPLM-6876	Style BOM: The BOM with or without material types now includes view options.
YPLM-7259	Style BOM: Added a new configurable option for the 'BOM ' Field to add to Line List > Flash Edit> Style header grid. This will allow users to mass update a Style’s BOM used within the Line List.
YPLM-6903	Style BOM Colorway: Updated the Style’s BOM Colorway > Swap Colorway > Select Color Palette where any selected colors are no longer available for selection to replace other colors when working within the BOM.
UIMOD-3981	Style Folder: Updated the Style Marker’s Edit marker page user interface.
UIMOD-3982	Style Folder: Updated the Style Model’s Edit Model page user interface.
UIMOD-4248	Style Folder: Updated the Style Folder’s Line List user interface.
UIMOD-4249	Style Folder: Updated the Style’s Line List ‘add existing’ popup user interface.

YuniquePLM 8.10 Release Notes

UIMOD-6348	Style Folder: Updated the alignment of columns on the Style’s Bill of Labor workflow page Break link functionality to be left-aligned.
UIMOD-6587	Style Folder: Updated the user interface for the Sample Request’s new sample request function for a style that contains variations.
YPLM-7237	Style SKU: Updated the filtering logic of SKU items to improve performance and consistency between the SKU page and SKU API.
UIMOD-6641	Style Tech Pack: Updated the Style Tech Pack’s Status user interface.
YPLM-6019	Style Tech Pack: Added a new feature to allow a user to define a Tech Pack version field (example: development TP, PreProd, Production Ready, etc.), that can be seasonal or non-seasonal. A user can also create comments with the Tech Pack Panel to clarify changes. Once the Tech Pack is created it will contain the assigned version text and comments.
YPLM-6020	Style Tech Pack: Updated the Style’s Tech Pack page edit logic so that if a Tech pack status is set to Approved, it will not allow a user to create NEW tech Packs or delete existing tech packs. Users will still have access to view/download/comment, share existing tech packs, but not create new tech packs or delete existing tech packs. This includes areas around the application that have the ability to generate a tech pack (i.e. Line List, Sourcing, Sample Request, etc.) If the status is then changed to anything else, the user will be able to continue to create Tech Packs.
YPLM-7267	Style Tech Pack: Created two new Tech Pack print options: 1) Tech Pack Version History - seasonal option (landscape and portrait) 2) Combined Tech Pack Version History - all seasons (landscape and portrait)
YPLM-7457	User View: Updated the Style Sample Timeline View to include the name of the Measurement page used in a specific Sample Submit within the popup that can be shown when the user hovers over Submit.

YPLM# Defect List

7122	Admin: Corrected an issue with Admin setting: StyleMaterialsReadFromLib, where Tech Pack icon status was not being updated correctly when materials were being updated.
7123	BOM: Corrected the Dimensional BOM so that it now tracks dimensional value updates eg Color, Qty, etc.
7537	Line List: Corrected an issue in the Line List Flash Edit Style Header, where the search and columns sorting in the grid caused data to be modified.
7686	Line List: Corrected an issue in the Line List Flash Edit page, where the grid headers display an incorrect layout when adding the calendarbox field type.
7426	Material Folder: Corrected an issue in the Material Folder's search area, where the Material type 'trims' associated with the Material Sub-Type was not showing correctly in the filter.
7400	Style SKU: Corrected an issue in the Style SKU page where grouping in the grid was not able to be expanded.
7497	Style SKU: Corrected an issue in the Style SKU page where saving changes within the SKU grid on the second page resulted in unsaved changes.
7220	Style Tech Pack: Corrected an issue in the Tech Pack PDF where the application code did not take into consideration the user's timezone selection in the User profile.
7349	Style Tech Pack: Corrected an issue in control panel > Predefined tech pack area where empty value for tech pack cover page dropdown was selected and caused errors during tech pack creation.
7520	Style Tech Pack: Corrected an issue where report name changes within the Admin>Settings>Report> area were not updated within the Style Tech Pack's On the Fly area.
7546	Style SKU: Corrected an issue in the Style SKU page where the Dimensions drop-down selections were lost after saving for non-English users.
