V8.11 Release Notes

<i>Item #</i>	<i>New Features</i>
YPLM-2103, 7928, 7929	Accumark Integration: Updated the Style Marker page by resorting to field values to be consistent with other areas.
YPLM-8061	AccuMark Integration: Added model and marker sort order back to the Style Marker and Model workflow pages.
YPLM-6130	Admin Folder: Within the Admin>Type Management>Sample Request area, users can flag Sample Request Submit Types as an 'auto-create spec'. This automatically creates the spec within the corresponding Sample Request Submit Type, preloaded and ready for fit evaluation. The following app settings have been removed; <u>AutoCreateFit</u> and <u>AutoCreateProto</u> . YES / NO settings for existing Fit and proto sample types will be applied during the upgrade to 8.11.
YPLM-6842	Admin Folder: Updated an Admin setting that hides the Sourcing Folder to also hide the Quotes & Commitments folder within the Style Workflow and User View areas.
YPLM-7650	Admin Folder: Removed an unused line item from the Admin - WS Clients & Tools area.
YPLM-7819	Admin Folder: Removed redundant 'description' field in the Admin Folder > Setting > Report > BI > Search by.
YPLM-7864	Admin Folder: Added the following description for the 'autoPageApproved' setting: "If setting value equals 'ONE', as soon as one multi workflow sub-page is approved, the parent is approved automatically. If setting value equals 'ALL', as soon as all sub-workflow pages are approved, the parent workflow status will also update to 'approved'."
AIPLUG-68	Adobe Plugin: Updated the plugin's user interface for source file selection from the drop-down selection to new buttons.
AIPLUG-69	Adobe Plugin: Added a new option within the Image and Style app when creating new images, where the user now has the ability to copy from an existing image from the image library. This feature makes it ideal for working with a template image.

YuniquePLM 8.11 Release Notes

AIPLUG-565	Adobe Plugin: Updated field names within the Color and Material apps to match YuniquePLM's search fields.
AIPLUG-582	Adobe Plugin: Updated the Style app permissions to hide the BOM (Style Bill of Material) tab for users who do not have access to this area within YuniquePLM.
AIPLUG-600	Adobe Plugin: A newly created BOM in Style app will immediately open upon creation, allowing the user to work directly on BOM.
AIPLUG-663	Adobe Plugin: Added material groups from YuniquePLM into the Style app, available when working on Style BOM.
AIPLUG-866	Adobe Plugin: Updated the plugin giving users the ability to delete a BOM Colorway.
AIPLUG-1049, 1050	Adobe Plugin: Resorted the icons on the bottom of the plugin's Color Folder page.
AIPLUG-1166	Adobe Plugin: Updated the YuniquePLM design suite compatibility to Adobe Illustrator CC2019 (v23.1) - CC 2021 (25.2) for YPLM v8.1-8.11.
PAPI-134	API Development: Added APIs for Material Submit. Developers should refer to the API explorer for more details.
PAPI-137	API Development: Removed required StyleID from API WorkflowItem GET.
UIMOD-6665	Application Configuration: Updated the Bill of Material View to include a 'Group by Material Type' checkbox.
YPLM-5224	Application Configuration: EAV grouped fields updated to include the BOM Material Non-Edit Header EAV Field when making changes to Material headers.

YuniquePLM 8.11 Release Notes

<p>YPLM-6848</p>	<p>Application Configuration: Updated the Line List Batch Update and Search non-system required fields to be configurable.</p>
<p>YPLM-7135</p>	<p>Application Configuration: Added EAV configurability to the Style Folder Seasonal Colorway page.</p>
<p>YPLM-7678</p>	<p>Application Configuration: Added EAV configurability to the Style Folder Design Detail workflow page.</p>
<p>YPLM-7679</p>	<p>Application Configuration: Added EAV configurability to the Style Folder Design Detail Custom workflow page.</p>
<p>YPLM-7968</p>	<p>Application Configuration: 'Bill of Material List' OOTB report now configurable. This can be configured via Admin > View > layouts for custom materials as well as and the following OOTB layouts:</p> <ul style="list-style-type: none"> Material_StyleBOMPrint_Default Material_StyleBOMPrint_A_E_Thread Material_StyleBOMPrint_Accumark Material_StyleBOMPrint_Artwork Material_StyleBOMPrint_Embroidery Material_StyleBOMPrint_Heel Material_StyleBOMPrint_Interlining Material_StyleBOMPrint_Knits Material_StyleBOMPrint_Labels Material_StyleBOMPrint_Lasts Material_StyleBOMPrint_Leather Material_StyleBOMPrint_Lining Material_StyleBOMPrint_Other Material_StyleBOMPrint_Packaging Material_StyleBOMPrint_Sole Material_StyleBOMPrint_Thread Material_StyleBOMPrint_ToeBox Material_StyleBOMPrint_Tooling Material_StyleBOMPrint_Trimming Material_StyleBOMPrint_Upper Material_StyleBOMPrint_Wovens Material_StyleBOMPrint_Yarns Material_StyleBOMPrint_Zippers

YuniquePLM 8.11 Release Notes

<p>YPLM-7821</p>	<p>BI Folder: Updated the BI Folder > 'Sample Detail Tracking' report to show the correct 'final date'.</p>
<p>YPLM-7608</p>	<p>Color Folder: Updated the system required palette name field within the Color Palette> Edit> View Editor area to non-editable.</p>
<p>YPLM-5911</p>	<p>Flash Edit: Removed redundant 'Material' entry from Folder type Filter on the Flash Edit search.</p>
<p>YPLM-7663</p>	<p>General Application: YuniquePLM offers a new banner for announcements such as new versions of the application and additional account detail alerts.</p>
<p>YPLM-7690</p>	<p>General Application: Previously added attachments containing a comma in the file name can now be downloaded from attachment areas.</p>
<p>YPLM-7944</p>	<p>General Application: Added a new banner to notify users of unsupported browsers.</p>
<p>YPLM-7550</p>	<p>Line List: Updated the Line List Flash Edit Style # field to be wider.</p>
<p>YPLM-7214</p>	<p>Material: Updated the Material>Where Used area so that the user can 'go-to' a material and filters are not lost upon returning to the Material Where Used page.</p>
<p>YPLM-7793</p>	<p>Partner Folder: Updated the Partner Folder Country field sort order to match the Control Panel sort designation.</p>
<p>YPLM-7575</p>	<p>Sample Request: The .HEIC file format is now supported within the Sample Request.</p>
<p>YPLM-7622</p>	<p>Sample Request: Added the capability to copy data from one column to another within the Sample Request - Multi-Sample.</p>

YuniquePLM 8.11 Release Notes

YPLM-7790	Sample Request: Updated the Sample Request to allow the following attached formats, PDF, .AI, .HEIC image types, to be edited via the Markup Tool.
YPLM-7561	Style BOM: Updated the Style - BOM Colorway - Swap Colorway area, where if a color is already in use within the BOM, then it's unavailable for replacing using the 'Swap Colorway' functionality.
YPLM-7684	Style BOM: Updated the Style Folder BOM Colorway area to include a "go-to" link on a material, which takes the user directly to the material's page.
YPLM-7598	Tech Pack: The Tech pack version history reports (v8.10) are now available for selection during the 'on-the-fly' tech pack creation.
YPLM-7642	Tech Pack: Updated the Style Tech Pack to check the material versions.

Item #	Defect List
PAPI-144	API Development: Updated the List Color Palette API sort order within the Color Service - Palette area.
6303	Application Configuration: Updated the Style Folder Header non-edit views to include EAV configurability throughout all Style workflows.
7521	Batch Queue: Corrected an issue where Tech Packs created using the Batch Queue functionality were not showing the Style BOM or Measurement page names used in the Tech Pack on the Style > Tech Pack workflow summary page.
7594	Control Panel: Corrected an issue within the Control Panel > General Validation> Intro Season year area, where the 'set as current season' checkbox was not saving correctly.
5046	Dev Calendar, Style Tech Pack: Corrected an issue in the Dev Calendar where the incorrect dates for Tech Pack were shown.
7686	Line List: Corrected an issue in the Line List Flash Edit page, where the grid headers displayed an incorrect layout when adding the calendar box field type.
8027	Line List: Corrected a field sort order issue for thumbnail view within the Line List area.
4960	Material Request: Enlarged the date field columns within the Material Request allowing a full view of the date.
7633	Partner Folder: Updated the country drop-down to enable the correct selection of a trade partner's country instead of showing a blank value.
7700	Reporting: Corrected an issue within the User view > Sample View area where Style Submit filters were not applied correctly, resulting in all values shown regardless of applied filters.
6957	Sample Request: Corrected an issue where the incorrect Sample Request Submit Number was being used simultaneously while submitting the Sample Submit and posting revisions to the Measurement page.
7878	Sample Request: Corrected an issue where entered values were not converting to negative (based on the Measurement Template setup) in the Sample Request > Edit spec.
7845	Style BOM: Corrected an issue where color pitching was showing blank values on OOTB BOM reports for size/variation.

YuniquePLM 8.11 Release Notes

8001	Style BOM Colorway: Corrected an error during the swap colorway function on the BOM > Colorway page.
5319	Style Costing: Added a new Costing report without the \$ symbol to account for multiple currencies.
6661	Style Folder: Updated the Style Measurement workflow to include measurement images when creating variations.
7376	Style Folder: Updated the Construction details page to immediately update the sort order instead of requiring a page refresh.
7892	Style Folder: Corrected an issue where the printout selection for sub-workflow pages was not copying over to newly created variations.
