V8.13 Release Notes

<i>Item #</i>	<i>New Features</i>
UIMOD-2647	Admin Folder: The Admin Folder's Setting>Applications AND System areas no longer contain the 'General' subfolder, creating a significant click reduction for Admin users.
YPLM-8628	Admin Folder: Updated the Admin > Type Management > Style > Style No Lock field so it retains the 'lock style no' logic without requiring an additional SAVE.
YPLM-7808	Change Log: A change log has been added to the Style and Sample attachment workflow areas.
YPLM-7934	Change Log: The Image Folder's change log has been updated to capture any changes made within the Style and Color - Edit Image areas.
YPLM-8256	Color Folder: Updated the sort order related to the Color Folder New Palette Type to be consistent with the Type Management Color area.
YPLM-3268	Color Folder: Updated the Color Palette sorting options to include color name and color code.
UIMOD-2387	Control Panel: The Control Panel POM Library user interface look has been updated to match other areas across YuniquePLM.
YPLM-8343	General Application: The system-generated email's visual appeal and format have been updated.
YPLM-7581	Image Folder: The Image Folder-Catalog area now includes a search filter where users can search records per page for images within their selected image catalog.
YPLM-7582	Image Folder: The Image Folder- Catalog area now offers the ability to save a search using the new search area.
YPLM-8257	Image Folder: Updated the sort order related to the Image Catalog > Edit > Edit Image > Image Type area to be consistent with the Type Management Image area.
YPLM-8297	Image Folder: The Image Catalog now opens in a new tab instead of refreshing within the existing image catalog page, allowing users to have multiple image catalog tabs open at once.
AIPLUG-1231	Line List: Added 'Dropped' details to the Line List app's export functionality.

YuniquePLM 8.13 Release Notes

AIPLUG-1256	Line List: Added a 'Stop Export' function within the flyout menu of the Line List app.
AIPLUG-1280	Line List: The Line List app allows users to send artboards back into YuniquePLM via the "Export to PLM" button as an attachment in the Line List.
UIMOD-6713	Line List: Updated the Measurement Palette edit area to simplify selecting a template.
YPLM-8389	Line List: The Line List's Flash Edit area now includes the Style Headers Active Yes/No field.
YPLM-8453	Line List: The Line List's Palette Edit area no longer auto scrolls the window to the top when a user adds an item and hits save, instead the window remains where the user pressed save.
YPLM-8520	Line List: The Line List folder now includes Style Colorways in the list view which is also available in the excel export.
UIMOD-4178	Material Folder: The UI within the Material Attachment - Adding attachments window has been updated.
YPLM-8327	Reporting: The Style's Bill of Material report, Bill of Material list, has been reformatted to match other OOTB report formats.
YPLM-8646	Sample Request: Updated the Tech pack page printouts sort order for Measurement workflow with multiple subpages to print in the same order of subpages as displayed on screen.
YPLM-8571	Sample Request: Updated the Tech Pack page printouts sort order for construction details workflow with multiple subpages to print in the same order of subpages as displayed on screen.
YPLM-8282	Sample Request: Users can now link an AccuMark Model to a Style Sample Request. An AccuMark Model link can be found in the Fit Submit panel.
YPLM-8529	Style BOM: The Bill of Material list report configuration has been updated to include a placement field for Material Type: A&E Thread.
YPLM-5422	Style Folder: The Style Folder now contains a description in the top left corner with the style # when the following setting is enabled, "showstyledescription".
YPLM-8226	Style Folder: A new warning message has been added to alert the user when a new season is added to a style via 'intro season' year field changes.

YuniquePLM 8.13 Release Notes

YPLM-7916	Style Header: The Style header is now also configurable based on the Calendar Status providing a great way for users to manage different style attributes based on the various product stages.
YPLM-8296	Style Tech Pack: The Style Tech Pack area now includes a new status icon which is similar to the existing style workflow pages.
YPLM-8385	Sourcing: The Sourcing Name is now included in the Quote and Commitment results grid panels within the Universal Search.
YPLM-8016	srmOn: The Style's Material page now includes a visible status panel when shared with the srmOn user.
YPLM-8569	srmOn: Updated srmOn so that the partner user can work with the Text-Image page (in conjunction with enablesrmonpageaddandedit setting) without error.
YPLM-8363	Universal Search: Universal Search restrictions and tooltips are now in sync between the main and search results page.

<i>Item #</i>	<i>Defect List</i>
YPLM-8576	Control Panel: Corrected an issue when adding a new feature to Construction Details.
YPLM-8486	Material Folder: Corrected an issue within the Material Edit area, where the subtype field did not update when changing the material type value.
YPLM-8143	Partner Folder: Corrected an issue when creating a Partner whereby EAV multi-select / dropdown fields were causing an error.
YPLM-8142	Sample Request: Corrected an issue within the Sample Request comments area, where the font and color format was not applied correctly.
YPLM-8454	Style BOM: Corrected an issue where a material with no UOM value was not tracked in the change log.
YPLM-8608	Style Folder Tech Pack: Corrected an issue within the Style Tech Pack where it appeared as if all vendors and agents received the Tech Pack.
YPLM-8149	Translation: Corrected an issue where Internal and Shared Comment string translations were not showing correctly.
