## V8.8 Release Notes

<b>YPLM#</b>	<b>New Features</b>
<b>6772</b>	<b>AccuMark Integration:</b> Updated the Style Model workflow page to include the Comments per Piece.
<b>6695, 6746</b>	<b>Application Configuration:</b> The application's left navigation text has been updated with color differences to indicate the user location, increased font sizes for easier reading and menu options are highlighted when expanded.
<b>6609, 6610, 6641</b>	<b>Color, Material, Style BOM Folder:</b> The application has been updated to no longer include pending pages when adding colors to a color palette, adding colors to a material, and adding materials to a Style BOM.
<b>6708</b>	<b>Color Folder:</b> The YuniquePLM status icons have been improved to have a visual appeal and a clear indicator.
<b>6819</b>	<b>Control Panel:</b> Updated the Control Panel Initial Page to the new user interface.
<b>UIMOD-4095, 4096, 4098, 6514, 6515</b>	<b>Construction Details:</b> Updated the Style Folder Construction Detail page to the new user interface.
<b>6383</b>	<b>EAV Configuration:</b> The Control Panel's Content Composition page has been updated to prevent the deletion of currently in-use entries.
<b>6752</b>	<b>Freelance Design:</b> Created two new reports for the Freelance Design page that correctly prints any associated text alongside the image.
<b>5843</b>	<b>Image Folder:</b> The Image Folder - Creating a New Image page has been updated to focus the user on first selecting an image type then the drag and drop image area is displayed on screen. This avoids future errors from users first adding the image and not selecting an image type.
<b>6436</b>	<b>Image Folder:</b> Updated the Image Folder search functionality to include new Artboard fields; Artboard and Artboard Name. These fields must first be enabled from the EAV editor.
<b>5521</b>	<b>Line List:</b> Updated Line List to include multi-select EAV Support.
<b>6403</b>	<b>Line List:</b> Removed the Sync Function and added a Sync SKU Names which will apply the current SKU Plan name to the selected Style SKU Pages within the Line List.

YuniquePLM 8.8 Release Notes

<b>6626</b>	<b>Line List:</b> The Line List SKU and Showroom workflow pages have been updated to match the BOM's sort order.
<b>6655</b>	<b>Line List:</b> Updated the Line List to include a comments section, matching other areas of the application.
<b>6756</b>	<b>Line List:</b> Updated the Line List Search Page to show/hide any field during configuration.
<b>UIMOD-4082</b>	<b>Line List:</b> Updated the Line List's Measurement page to the new user interface.
<b>5965</b>	<b>Material Folder:</b> Updated the Material Folder's Change Log to capture when a material's supplier is made (in)active.
<b>6755</b>	<b>Material Folder:</b> Adding Colors to a Material has been updated, where selecting colors adds them to the bottom of the existing color list, while also keeping track of the selected color position.
<b>6269</b>	<b>Material Folder:</b> Updated the Material Copy logic to include any Material Color EAV (OOTB and Custom) fields while also retaining entered data in this copy process.
<b>UIMOD-4284</b>	<b>Material Folder:</b> Updated the Material Copy page to the new user interface.
<b>6127</b>	<b>Measurement Page:</b> Added a new warning message (when the user clicks EDIT SPEC on sample request) to alert the user that the associated Style measurement workflow page is approved and that the sample revisions will apply to the measurement workflow page.
<b>5164</b>	<b>Measurement Template:</b> Updated the Measurement Templates Copy Functionality so that it now retains data entered against the EAV fields.
<b>6600</b>	<b>Partner Folder:</b> Updated the Partner Folder by removing a redundant legacy template.
<b>5943</b>	<b>Sample Folder:</b> Deleting a Sample or Sample Folder has been clarified with more descriptive tooltips and warning messages. When selecting delete from the Summary view, all samples are removed. When selecting delete from a Sample page, that particular sample is deleted.
<b>6128</b>	<b>Sample Request:</b> Corrected an issue in the Sample Request, where POM values were inserted to the Eval Size column as Blank instead of their value.

YuniquePLM 8.8 Release Notes

<b>6214</b>	<b>Sample Request:</b> Duplicate POM's can now be added into the Sample Request Edit Spec area.
<b>UIMOD-4018</b>	<b>Sample Request:</b> Updated the Edit spec page for Multi-Sample (sample type) within the Sample Request to the new user interface.
<b>UIMOD-4168</b>	<b>Sample Request:</b> Updated the Create Spec page user interface for Fit Group - ProtoType / Fit Sample / Sale Sample / Pre Production / Top of Production.
<b>UIMOD-4170, 4171</b>	<b>Sample Request:</b> Updated the Create Spec page user interface for the QA Worksheet Sample Type.
<b>6558</b>	<b>SDK:</b> Updated the Style BOM for Accumark integration.
<b>6757</b>	<b>Sourcing:</b> Added the ability for a System Administrator to show or hide, out of the box (OOTB) fields of Sourcing Folder Search form and Grid results.
<b>6100</b>	<b>Style BOM:</b> Updated the Style BOM's Change Log to reflect changes made in the Line List Color and Material Palette Edit areas, such as when a color is dropped or removed from the Line List.
<b>6164</b>	<b>Style BOM:</b> Updated the Style Copy logic so when a user deselects the BOM, any connected SKU workflow page associated with that BOM will be automatically deselected.
<b>6365</b>	<b>Style BOM:</b> Expanded the Select/Unselect All checkbox functionality on the BOM to Dimension options, ART, LIC, CLR, BOM, and TRK columns.
<b>6813</b>	<b>Style BOM:</b> Updated the Style BOM Change Log to reflect any changes made to BOM Options.
<b>5618</b>	<b>Style BOM Colorway:</b> Added a Palette section button to the Style BOM Colorway - Swap Colorways area.
<b>6335</b>	<b>Style BOM Colorway:</b> Expanded the existing 'ADD ROW' functionality on the BOM Colorway page to allow users to add rows directly under the BOM Colorway column header, before the first material entry in the colorway grid.
<b>6598</b>	<b>Style Folder:</b> Updated the Style Image workflow's Burn Image functionality to include all images within a zip file.

YuniquePLM 8.8 Release Notes

6411	<b>Style Folder:</b> The Style Folder sub-workflow pages, page type selections have been locked to avoid data loss. After a sub workflow page is created the page type selection will now be locked.
6428	<b>Style Folder:</b> Added ERP code to intro season year tables that can now be used in the Style auto number generation.
6441	<b>Style Folder:</b> Updated the Style Folder's Text-Image predefined text area to show empty rows if entered by the user.
6793	<b>Style Folder:</b> Corrected an issue when creating a costing scenario; the BOL value added to the costing scenario differed to the Style BOL workflow value.
UIMOD-4169	<b>Style Folder:</b> Updated the 'Select Sample size' page user interface for Fit Group - ProtoType / Fit Sample / Sale Sample / Pre Production / Top of Production.
UIMOD-4270, 4271	<b>Style Folder:</b> Updated the Style Design Detail Custom workflow page to the new user interface.
UIMOD-6439	<b>Style Folder:</b> Updated the button placement on the Style Folder 3D View page.
UIMOD-6499	<b>Style Folder:</b> Updated the 'Create Spec' page user interface for Multi-Sample Type.
876	<b>Style SKU Page:</b> Added the ability to create SKU Templates that can be added to the Style SKU page and the Line list SKU plan.
6700	<b>Style SKU Page:</b> Updated the Style - SKU Item API to include the modified date and modified user details.

**YPLM# Defect List**

<b>5537</b>	<b>Admin Folder:</b> Corrected an issue in the Admin / Permission groups where there was a duplicate entry for sample request type 'Fit Sample'.
<b>6065</b>	<b>Admin Folder:</b> Updated reports within the Style Bill of Materials, Artwork images, License, and Line list to correctly display material data in reference to app setting StyleMaterialsReadFromLib.
<b>6300</b>	<b>BI Folder:</b> Corrected a reporting issue where TID value was missing for custom reports.
<b>6760</b>	<b>Control Panel:</b> Corrected an issue when creating a new style where the workflow type was not filtering correctly based on Division and Style Type selections.
<b>6791</b>	<b>Control Panel:</b> Corrected a sort order issue in the main menu of the Control Panel Items listing.
<b>5633</b>	<b>Costing Page:</b> Corrected an issue where the Expression fields for Money were ignoring the currency system culture.
<b>6207</b>	<b>Dev Calendar:</b> Updated the Line List Search to include an Active field where it defaults to Yes.
<b>6410</b>	<b>Dev Calendar:</b> Corrected an issue in the Calendar Style level where Style Tasks were shown in a sort order different than the actual Dev Calendar.
<b>3375</b>	<b>Line List:</b> Corrected an issue in the Line List's Change Log, where previously dropped Styles were showing as duplicate changes once other changes were made.
<b>5605</b>	<b>Line List:</b> Corrected an issue in the Line List's Change Log where multi-select fields were not properly displayed.
<b>6593</b>	<b>Line List:</b> Corrected an issue in the Line List where active styles were incorrectly displaying in the dropped subfolder.
<b>4714</b>	<b>Measurement Page:</b> Corrected an issue on the Measurement page where changing the sample size did not accurately reflect the "0" grade rule.
<b>6414</b>	<b>Reporting:</b> Corrected an issue where the sort order of sub-pages displayed on the predefined Tech Pack page did not match the sort order of created sub-pages (e.g. Measurements) on the actual style.
<b>4009</b>	<b>Sample Request:</b> Corrected an issue with the Sample Request Markup Tool where the arrow function was showing the incorrect stroke color.

YuniquePLM 8.8 Release Notes

<b>6056</b>	<b>Sample Request:</b> Corrected an issue where the Date Time formatting was not displayed correctly on the Photos Modified Date information within the Sample Requests, even if a user sets the appropriate TimeZone.
<b>6352</b>	<b>Sample Request:</b> Corrected a page refresh issue when a user clicked "No" to refresh the sample status.
<b>5966</b>	<b>Style BOM:</b> Updated the BOM Colorway Treatment/Size columns to display as *NA, like on BOM Edit view for consistency.
<b>6316</b>	<b>Style BOM:</b> Corrected an issue where the app setting StyleMaterialsReadFromLib was not taken into account for Artwork image previews.
<b>6385</b>	<b>Style BOM:</b> Corrected an issue where Material Placement was automatically included in the BOM when adding a material via the Material Library Lookup.
<b>6653</b>	<b>Style BOM:</b> Corrected an issue on the Style BOM Dimension where the quantity was only saved for active dimensional combinations.
<b>5969</b>	<b>Style BOM Colorway:</b> Corrected an issue on the BOM Colorway page when a user selects a Color Chip causing the modal window to expand into the main window instead of the search area.
<b>2350</b>	<b>Style Folder:</b> Corrected an issue where image updates were not captured in the Style Workflow Change Log.
<b>5846</b>	<b>Style Folder:</b> Corrected an issue where Text-Image page previews were inserting additional blank rows to the PDF.
<b>6216</b>	<b>Style Folder:</b> Corrected an issue within the Style Look Book workflow page where an error resulted from hidden page controls.
<b>6503</b>	<b>Style Folder:</b> Corrected an issue when Quick Quotes is created under the incorrect Style Number due to a modified date sort order.
<b>5988</b>	<b>Style SKU:</b> Corrected an issue in the Style SKU, Line List SKU & Showroom pages where non-administrators experienced the column headers disappear while in Edit mode.
