YPLM# Defect List

PAPI-123	API: Corrected SKU APIs to only send active BOM / SKU Dimension data.
6994	BOM: Corrected an issue where the Style BOM > Colorway Change Log is not capturing the Material and therefore shows the current Tech Pack status as green instead of red.
7083	BOM: Corrected an issue that occurred if additional dimensions were added to a BOM, where dimensional data (material color, qty, material size) was not copied correctly to the new dimensional combinations.
7222	Construction Details: Corrected an error that occurred after uploading images to the Construction Details page.
7317	Control Panel: Corrected an issue within the Control Panel where the subdivision drop-down checklist was not saving selected values.
6932	Line List: Corrected an issue where the wrong copy page for the selected style type in the Line List Copy Style was presented to the user.
6940	Measurement Page: Corrected an issue on the Style Measurement and Sample Request / Edit Spec pages where the 'out of tolerance flag' was not correctly updating the Sample Spec.
6879	Sample Request: Corrected an issue where uploaded Sample Fit photos were rotated.
7229	Sample Request: Corrected an issue where the Excel Export button on certain Sample Types did not appear within the Sample Request.
